

Parish Walk No 61 8th April 2017 - Fereneze Braes

With competition from football matches and various celebrations going on only 6 people went on this walk. It was a fairly easy 6 mile circuit which included a good vantage point with great views in all directions. The weather was splendid and underfoot conditions were good. The walk starts and ends at Barrhead Station but quickly you are in open country and mixed woodland. On passing Fereneze Golf Course the views open up over East Renfrewshire and as the golf course is passed the views over the Southern Highlands are quite breathtaking. The walk continues to climb to the highest point giving a magnificent panorama. After that it was downhill all the way. All 6 participants voted this a 'great wee walk'. Only a couple of pictures were taken as all the people with cameras had stayed in bed that morning!
